Dear [Hiring Manager],

I am excited to apply for the [Position] role at [Company], as I believe that my passion for creativity and design, combined with my skills in web development and graphic design, make me a strong candidate for the position.

Born in Ames, Iowa and raised in South Korea, I have always been drawn to the world of art and design. As a freshman in high school, I began filling my sketchbook with drawings and paintings, which sparked my passion for creativity and led me towards a career in the arts.

While I initially intended to transfer to an art school, I eventually discovered my interest in Informatics and pursued a major in that field with a cognate in Graphic Design. Throughout my time at Indiana University Bloomington, I have honed my skills in web development and graphic design, and have worked on a variety of projects that showcase my creativity and attention to detail. One quote that has always resonated with me is by Pablo Picasso: "Everything you can imagine is real." I take this to heart, and strive to be as creative and imaginative as possible in all of my work. I believe that my passion for creativity, combined with my skills in web development and graphic design, will allow me to make a meaningful impact in the world of design.

As I move forward in my career, I am excited to continue building my skills and portfolio, and to network with other designers and professionals in the field. I am eager to contribute my skills and enthusiasm to the team at [Company], and to work together towards creating innovative and impactful designs.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to the success of your team.

Sincerely,
[Your Name]
